

ATHENA

The Athena side table embodies the modern style.

The glass tabletop and leg frames are available in a range of Swanky Design colours and effects.

The leg frame is UV bonded to the glass top and glass base. The UV bond has been laboratory tested and meets a very high standard of 300kg shear pressure per leg. Glass table top corners are rounded for safety.

Materials used are environmentally friendly. The table has been designed so it is simple to assemble. Each table is stamped with the Swanky Design Logo. Made In England.

All glass is Toughened Safety Glass and conforms to British Standards BS 6206 which is recognised world-wide.
