

# VERON

The Veron is bold, contemporary and functional. The Veron is precision manufactured with high quality engineering to allow the arm to rotate with a 180 degree action. The veron is available in a non movement version.

The glass tabletop and leg frames are available in a range of Swanky Design colours and effects.

Materials used are environmentally friendly. Each table is stamped with the Swanky Design Logo. Made In England. Available in Marine Grade materials.

The mechanism within the table is manufactured through precision engineering where tolerances are within 10 microns to ensure a smooth and quality movement.

Glass Tabletop - The leg section is UV bonded to the glass top. The UV bond has been laboratory tested and meets a very high standard of 450kg shear pressure per leg. Glass table top corners are rounded for safety.

All glass is Toughened Safety Glass and conforms to British Standards BS 6206 which is recognised worldwide.
